

# We Will Live Intuitively

7:00 p.m., Friday, March 25-noon, Sunday, March 27

With Echo Bodine

The Big Book tells us that if we stay sober and live by the Twelve Steps, “we will intuitively know how to handle situations which used to baffle us.” This is a profound and powerful promise, yet few people really know what it means to live intuitively. Join Echo, an internationally known author and psychic, who will teach what intuition is and how we can experience it more by awakening the still, small voice within.
